Position Management Training for HCM

Overview

Position Management is used at UCB to track positions. By tracking positions, you can keep a history of all positions at the university, regardless of whether they are filled or vacant. In this way, organizational reporting relationships can be tracked independent of the employees in those positions.

Employees can be moved in and out of positions while the focus remains on the position and corresponding attribute information such as department, location, standard hours and funding. When an employee leaves a job, the position becomes vacant and the information associated with the position is retained. The record of position data in UCB’s HCM system serves as a basis for organizational planning, budgeting, and recruitment.

Objectives

In this manual, you will learn the following:

- What is Position Management
- Position Management Process
- Hiring using Position Management
- Job Reclassification using Position Management
- Viewing and creating positions
- Updating positions
Understanding Position Management

Section Overview

In this section, you will learn the concepts of Position Management and its process in HCM. You will also receive an overview of the impacts that Position Management will have on HCM, Budget and Planning.

Section Objectives

In this section, you will learn how to perform the following tasks:

- What is Position Management?
- Implications of Position Management for HCM
What is Position Management?

Review this topic to learn "What is Position Management?" with the HCM system.

Procedure

In this topic, you will learn the concept of Position Management and its function within Human Capital Management (HCM).

The roof to the right represents a department. The figures represent people in the department.

Let’s ask a few staffing questions about this department.

**How many people are in this department?**

*Answer: 4*

**How many vacant positions are there?**

*We don’t know.*
What is Position Management?

Let's have these people take their seats. The chairs represent all the positions in this department.

Let's ask the same questions again.

**How many people are in this department?**

*Answer: 4*

**How many vacant positions are there?**

*Answer: 2*

What is Position Management?

Position Management can tell you how many positions there are, as well as how many are filled and vacant.

Position Management can answer these questions and more.
Position Management can track positions in the HCM system by assigning them position numbers.

A person holding a position is an Incumbent.

Position Numbers

A Position Number is:

- Eight digits, including possible leading zeros
- Automatically assigned to a new position
  - Numbers are assigned in order as they are created.
  - The number does not indicate the Department or Job Code.
- Recommended but not required for creating a TAM job posting
  - Best practice: always use a Position Number
- Required to hire a person into a job
- Searchable: You can search for an existing Position Number
  - HCM Users will be able to search for Position Numbers in HCM

Departmental Finance Managers will be responsible for maintaining Position Numbers. They will be able to pull a Department Position Roster report from BAIRS.
What is Position Management?

Position Management coordinates 3 components:

**Position:**
A job independent of an employee

**Person:**
An employee

**Job:**
The union of a position and person

Example: Administrative Assistant II

As in a person named “Chris Doe” having the position of Administrative Assistant II

The framework to manage all positions in one central location

- Filled, vacant, active, or inactive
- Track positions, identify vacancies, and view historic position data

Hence, it is a tool for making more informed Human Resources and Budgeting decisions
Position Management is a **new module** within the Human Capital Management (HCM) system.

**Position Attributes**

Positions are created and viewed from the **Add/Update Position** page in the Position Management module.

**Required fields:**

- **Effective Date**
- **Reason** (Reason Code)
- **Job Code**
- **Department**
- **Location**
- **LVL 7 Dept** (Dept ID)
- **Standard Hours**
Position Attributes - Funding

Use the **Position Funding** tab to enter the funding chartstrings:

- **The Effective Date** (populated from the effective date on the Description tab)
- **GL Business Unit**
- **Account** is filled in from Job Code
- **Fund**
- **DeptID**
- **Program**
- **Chartfields 1-2** (optional)
- **Distrb %**
- **ERNCD**

---

Position vs. Job Funding

**Funding chartstring(s)** exist in position data and job data

- **Position chartstring**: Chartstring for budgeting (ongoing)
  
  The position chartstring indicates the ongoing position funding. It is also used to report on the position when the position is vacant.

- **Job chartstring**: Chartstring for payroll
  
  The job chartstring is used to indicate the funding that pays the employee. **When a position is filled**, Budget and Planning report on the position based on the **job chartstring(s)**.
Do I want to update Position Data or Job Data?

When making changes to Position Data or Job Data, ask yourself these helpful questions:

- **Is this an on-going change or a temporary salary change?**
  - Ongoing changes, and changes that affect all incumbents in a position, should be made to Position Data.
  - Short-term changes, changes that affect only certain incumbents, and payroll funding changes to filled positions, should be made to Job Data.

- **Does the change impact the position or a specific person’s job?**
  - Changes that impact how you want to budget for a position in the long run should be made to Position Data.
  - Changes that are necessary due to the person holding the position should be made to Job Data.

---

Position Management – A Review

- A **position** is a job in the organization, independent of any particular employee.
- When an employee (incumbent) leaves a position, the **position remains** (vacancy) to be filled again.
- Employees with the **same position number** share the following attributes: Business Unit, Job Code, Department, Reports To, FTE, and Position Funding.
- An employee in a job has specific attributes, such as Salary, Appointment Type, and Payroll Funding.

**Position:** A job independent of an employee

**Person:** An employee

**Job:** The union of a position and person
Implications of Position Management for HCM

Review this topic to learn the "Implications of Position Management for HCM."

Procedure

In this topic, you will learn how the implementation of Position Management will impact HCM, Planning and Budgeting at UC Berkeley.

Summary of Changes

- HCM work procedures will change minimally so that:
  - A position number is required to hire a person in WFA
  - A position number is recommended to post a position in TAM and may be required by your department or service center business process

- **New terminology:** headcount, incumbent, position funding

- **Funding chartstring(s)** will exist in position data and job data
  - **Position chartstring:** chartstring for budgeting (ongoing)
  - **Job chartstring:** chartstring for payroll funding

*Note:* Budget Officers will need to indicate to HCM users if chartstring(s) need to be changed in Position and/or Job. This decision has CalPlanning implications.
Persons are no longer hired using job code, but are hired into positions with the job code.

Before Position Management was implemented, the employee, "Chris" was hired using a job code and no position existed to be tracked when Chris was no longer in that job.

However, with Position Management, "Chris" occupies a position. The position can be tracked as a vacancy and filled again once Chris leaves the position.
How is Position Data Different from Job Data?

Where we used to have only Job Data, we now use Job Data and Position Data.

<table>
<thead>
<tr>
<th>Current</th>
<th>Future</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Job Data</strong></td>
<td><strong>Position Data</strong></td>
</tr>
<tr>
<td>- Job Code</td>
<td>- Job Code</td>
</tr>
<tr>
<td>- Location</td>
<td>- Location</td>
</tr>
<tr>
<td>- Standard Hours</td>
<td>- Standard Hours</td>
</tr>
<tr>
<td>- Salary</td>
<td>- Position Number (NEW!)</td>
</tr>
<tr>
<td>- FTE</td>
<td>- Headcount (NEW!)</td>
</tr>
<tr>
<td>- Pay schedule</td>
<td>- Position FTE (NEW!)</td>
</tr>
<tr>
<td>- Funding Chartstring</td>
<td>- Position Chartstring (NEW!)</td>
</tr>
</tbody>
</table>

Fields that used to require entries in Job Data during the hiring process now will receive data from the Position Data pages.

Prior to Position Management, all the indicated fields would be filled out in Job Data.

With Position Management implemented, the Job Code, Location and Standard Hours fields will be maintained in Position Data.

Notice also there will be new data fields relevant to Job Data.

Salary, job FTE (percent time), Appointment Type and Funding Chartstring remain in Job Data.

There is a new Position Number field.
Benefits of Position Management

- Single, central repository for ALL UC Berkeley institution approved positions across all fund types/sources
  - Track all positions
  - Identify vacancies
  - View historic position data
- Provide Position and Position Funding data for reporting
- Reduction or elimination of redundant data entry in Budget, HCM, and ancillary systems
- Builds a bridge between Human Resources and Budgeting

Position data becomes the basis for organizational planning, recruitment and budgeting.

Position funding data will build a stronger bridge between Human Resources and Budgeting by creating a relationship that will ensure that our positions have stronger planning and are readily provided for.
Currently, people are hired into job; however, when Position Management goes live, this relationship will be converted into one position for each person in a job (each active job). An exception will be made for student jobs. And the person will be hired into the position. As far as the job is concerned, the position will be connected to the job.
Relationship Functionality in Position

A position can have multiple incumbents.
When could this be useful?

A position’s Headcount indicates the planned maximum number of incumbents for a position.

Multiple Headcount can be useful for employees with similar positions. For example: student workers in a department or groundskeepers. So it may make perfect sense to reduce these redundant position into one position where there are multiple people sharing the same position. We can do this because Position Management allows positions to have multiple headcount.
Position Management Process

1. Enter approved positions in HCM which automatically creates a Position Number
2. Create job postings for vacant positions in TAM using the Position Number
3. Hire a person by entering a Position Number in the Job Data page
   - Automatically pulls position and funding data into the employee record
4. Some updates made to Position Data automatically flow to Workforce Administration Job Data
   - Updates to position funding data are not automatically pushed to a person’s job data (Explained in detail later)

This is general description of the Position Management process.

**Note:** When using TAM we can use the Position Number to create a posting and the position number will be available in Manage Hires.
Where does Position Management fit in our current process?

Create Job Posting?

YES

Create Position and Enter Position Data

Enter Budgeted Funding Data in Position Data

Submit PAWS Ticket, or other Dept request (Include Position Number)

HCM

HCM

HCM

Create Job Posting in TAM

Hire Person into Job (Include Position Number)

NO

Enter Position Number in Job Data

Enter Additional Job Data and Other Funding

Incumbent Created

This is a flowchart for the current process. Notice that position will be important throughout the process in the HCM system.

Note: How new positions are reported to you will vary across departments.
Most Common Position Management Actions

Day-to-Day Operations

- Hire a person into a position
- Rehire, Transfer, Promotion, Additional Jobs, Reappointments, etc. using Position
- Enter a termination, creating a position vacancy
- Update Job Data chartstring (change from budgeted)
- Update a Job Data Supervisor ID
- Reclassify a position

Transitional Actions Due to Conversion

- Update a position’s Reports To Position Number
- Update a position’s Level 7 Dept (DeptID)

These actions are ones that you will need to perform after Position Management goes live and are due to the conversion of active jobs and PRT positions to positions in Position Management.

You will need to verify and update your positions’ Reports To position numbers and the Level 7 Dept (DeptID) fields in Position Management.
Workforce Administration

Section Overview

At UCB, with few exceptions (such as contingent workers), persons will be hired into positions. Position numbers will be required to be entered as part of the hiring process.

For most hires that originate from TAM (New Hires, Rehires, or Transfers) position number should populate from the posting into job data. However, in those situations where no position number was entered on the TAM posting, you will be required to enter the position number in order to complete the hire.

For non-TAM hires, the position number must be entered into the person's job data.

Section Objectives

In this section, you will learn how to perform the following tasks:

- Hire a New Employee using Manage Hires with Position number in the Posting
- Add an Academic Employment Instance
- Rehire a Former Employee using Manage Hires
- Transfer Into department
- Enter a Job Reclassification using same Position and a different job code
Managing Hires: New Hire from TAM Job Posting

Once the “Prepare For Hire” step has been completed and has sent an applicant for hire to Workforce Administration, that person will be listed on the Manage Hires page. For a new hire, after selecting their name from the Manage Hires list, you will need to add them as a person in the HCM system by clicking the Add Person button on the Manage Hires Detail page. After entering their personal information, you will click the Add the Relationship button to enter their Job Data information. Before you can complete the hire make sure the position number has been entered into the Position Number field on the Work Location page.

Note: It is possible for a TAM job opening to be created without a position number. However, a position number is required before a hire can be completed. If the Position Number did not auto-populate from the TAM job opening, be sure to enter a valid position number into the Position Number field on the Work Location page.

Depending on your security access, you may have fewer menu choices than are displayed in this topic.

Procedure

In this topic, you will learn how to hire an employee from a TAM posting created using a position number.
<table>
<thead>
<tr>
<th>Step</th>
<th>Action</th>
</tr>
</thead>
<tbody>
<tr>
<td>1.</td>
<td>Begin by clicking the <strong>Workforce Administration</strong> link in the main menu to start the hire.</td>
</tr>
<tr>
<td>2.</td>
<td>Click the <strong>Manage Hires</strong> link in the <strong>Personal Information</strong> folder.</td>
</tr>
<tr>
<td>3.</td>
<td>In the <strong>Manage Hires</strong> worklist page, you will find applicants who are now in &quot;ready to be hired&quot; status.</td>
</tr>
<tr>
<td>4.</td>
<td>Click the link displaying the person's name in the <strong>Name</strong> column to start the hiring process. Click the <strong>Rebecca Wells</strong> link.</td>
</tr>
</tbody>
</table>
5. Verify the selection in the **Type of Hire** field. Because this person is an External applicant who has never worked at UC Berkeley before, the correct type of hire for this person is "Hire/Add Job".

6. Always enter the starting date for the job into the **Desired Start Date** field. In this example, enter "10/1/12".

7. Click the **Vertical** scrollbar.

8. Press **[Tab]**.

9. The **Empl ID** field should be blank indicating that this is a new person in the system. The candidate will receive an employee ID once their personal information has been created in the system.

10. Click the **Vertical** scrollbar to begin adding the person.

11. Click the **Add Person** button.
<table>
<thead>
<tr>
<th>Step</th>
<th>Action</th>
</tr>
</thead>
<tbody>
<tr>
<td>12.</td>
<td>In the <strong>Name</strong> section, review the <strong>Effective Date</strong> and the <strong>Name</strong> of the person.</td>
</tr>
<tr>
<td>13.</td>
<td>Enter the date the employment begins into the <strong>Effective Date</strong> field. Enter &quot;10/01/12&quot;.</td>
</tr>
<tr>
<td>14.</td>
<td>Press <strong>[Tab]</strong>.</td>
</tr>
<tr>
<td>15.</td>
<td>In this example, enter &quot;1/15/1977&quot; into the <strong>Date of Birth</strong> field.</td>
</tr>
<tr>
<td>16.</td>
<td>Press <strong>[Tab]</strong>.</td>
</tr>
<tr>
<td>17.</td>
<td>If the employee has filled out release information that differs from the default, click the <strong>Release Information</strong> link to edit these values.</td>
</tr>
<tr>
<td>18.</td>
<td>Indicate the gender of the person. Click the <strong>Gender</strong> list.</td>
</tr>
<tr>
<td>Step</td>
<td>Action</td>
</tr>
<tr>
<td>------</td>
<td>--------</td>
</tr>
<tr>
<td>19.</td>
<td>Click the <strong>Female</strong> list item.</td>
</tr>
<tr>
<td>20.</td>
<td>Click in the <strong>Country Of Citizenship/Perm Legal Residence</strong> field.</td>
</tr>
</tbody>
</table>
| 21.  | Enter the country code, in this example, "USA" into the **Country Of Citizenship/Perm Legal Residence** field.  
For non-US citizens, use the **Look up** (magnifying glass). |
| 22.  | Enter "C" into the **Citizenship Status** field to indicate the person is a citizen.  
For non-US citizens, use the **Look up** (magnifying glass). |
| 23.  | In this example, enter "555-24-9000" into the **Social Security Number** field. |
| 24.  | Press [Tab]. |
| 25.  | Re-enter the social security number "555-24-9000" into the **Confirm Social Security Number** field. |
| 26.  | Click the **Contact Information** tab to continue entering information for this hire. |
Step | Action
--- | ---
27. | The Contact Information page displays. In this example, enter “PHYSI” into the Home Department field.
28. | Press [Tab].
29. | Notice that in this example, the home address, phone, and email have populated from the applicant profile. Add or update this information as needed.
30. | Click the Demographic Details tab.
### Step 31
You may already see information entered on this page from the applicant profile.

If the person has self-identified Ethnicity, Disability, and/or military status, indicate this information on this page.

### Step 32
Click the **White** option.

### Step 33
Click the **Ethnic Group** list.

**U-Decline to State**

### Step 34
Click the **F-White (not Hispanic)** list item.

**F-White (not hispanic)**

### Step 35
Click the **Eligibility** tab.
** Step 36. ** Select the Benefits Eligibility Level Indicator code (BELI) information.

Click the **BELI Code** list.

**Step 37.** Click the **1 - Career** list item.

**Step 38.** The BELI Effective Date is the date that elected benefits may begin.

Enter the date, "11/1/2012", into the **Effective Date** field for the BELI code.

**Step 39.** Enter the date that the person signed the I9 Verification form into the **I9 Verification Date** field. Enter "10/3/2012".

**Note:** The form must be signed before or on the first day of work.

**Step 40.** Press **[Tab]**.

**Step 41.** Enter the signature date for the Patent form into the **Patent Date** field. In this example, enter "10/03/2012".

**Note:** The form must be signed before or on the first day of work.

**Step 42.** Press **[Tab]**.

**Step 43.** Enter the signature date of the State Oath form into the **State Oath Date** field. In this example, enter "10/03/2012".

**Note:** The form must be signed before or on the first day of work. Only U.S. citizens must sign this form.
Step | Action
--- | ---
44. | Click the **Organizational Relationships** tab.

45. | Since this is an employee coming from a TAM posting, the system has already selected the employee relationship. Select the **Employee** checkbox if not defaulted.

46. | Use the **Add Relationship** button to enter the job data for this person.

**Note**: Clicking the **Add Relationship** button also saves all entries you have made and assigns an employee number.

47. | Click the **Add the Relationship** button.
Step | Action
---|---
48. | Verify or update the effective date.
   Enter the date the employment begins into the **Effective Date** field.
   Enter "11/1/2012".

49. | Press **[Tab]**.

50. | For the **Action** field, the "Hire" action has defaulted since this information is coming from **Manage Hires** page.
   However, we must select a corresponding reason.
   Click the **Reason** list.

51. | Click the **Hire** list item.

52. | Press **[Tab]**.

53. | The position number defaults from the TAM posting; however, it can be changed here if needed.
### Step 54

Notice that information has defaulted from the position, such as the **Department** and **Location** fields.

If any defaulted information needs to be changed on this page or subsequent job data pages, then click the **Override Position Data** button to enable these fields.

Note that when Override Position Data is activated, updates to the position will not flow to the incumbent’s job data. You will typically only override position data defaults when making a temporary change or exception to an incumbent’s data that does not apply to the position.

### Step 55

Click the **Job Information** tab.
<table>
<thead>
<tr>
<th>Step</th>
<th>Action</th>
</tr>
</thead>
<tbody>
<tr>
<td>56.</td>
<td>If <strong>Reports To</strong> was completed in the position, the Reports To position number displays. If the Reports To position is not vacant, and has only one incumbent, the employee ID of the Reports To position incumbent auto-populates the Supervisor ID field. If the Supervisor ID field does not populate from the position, or if the suggested ID is incorrect, then you will need to enter or update it.</td>
</tr>
<tr>
<td>57.</td>
<td>In this example, this is a career appointment. The Employee Duration is &quot;Indefinite&quot; and no appointment end date is needed. Click the <strong>Empl Duration</strong> list.</td>
</tr>
<tr>
<td>58.</td>
<td>Click the <strong>I-Indefini</strong> list item.</td>
</tr>
<tr>
<td>59.</td>
<td>In the <strong>Appt Type</strong> field, select the Regular/Career list item. Click the <strong>Appt Type</strong> list.</td>
</tr>
<tr>
<td>60.</td>
<td>Click the <strong>2 - Regular/Career</strong> list item.</td>
</tr>
<tr>
<td>61.</td>
<td>In this example, the employee is paid on the <strong>MO</strong> cycle. <strong>Note</strong>: In 2013, SM and MA pay schedules will be phased out and replaced with the new code &quot;BW&quot; for biweekly. Enter &quot;<strong>MO</strong>&quot; into the <strong>Pay Schedule</strong> field.</td>
</tr>
<tr>
<td>62.</td>
<td>Press <strong>[Tab]</strong>.</td>
</tr>
<tr>
<td>63.</td>
<td>In this example, enter &quot;<strong>E</strong>&quot; for exception time into the <strong>Time Code</strong> field.</td>
</tr>
<tr>
<td>64.</td>
<td>The <strong>Employee Relation Code</strong> defaults from the Job Code while the <strong>FTE</strong> field defaults from the position.</td>
</tr>
<tr>
<td>65.</td>
<td>Verify the <strong>FTE</strong> field. <strong>Note</strong>: The data in the <strong>FTE</strong> field comes from the position FTE. The <strong>FTE</strong> field can be edited here, but cannot be greater than the position FTE.</td>
</tr>
<tr>
<td>66.</td>
<td>Click in the <strong>Leave Code</strong> field.</td>
</tr>
<tr>
<td>67.</td>
<td>In this example, the employee will earn leave at a rate of 10 hours a month. Enter &quot;<strong>A</strong>&quot; into the <strong>Leave Code</strong> field.</td>
</tr>
</tbody>
</table>
68. Because this job is step-based, click the **Salary Plan** tab to enter the salary step that the employee will have.

Note: If this is an open-range job, you can skip the **Salary Plan** page and go to the **Compensation** page.

<table>
<thead>
<tr>
<th>Step</th>
<th>Action</th>
</tr>
</thead>
<tbody>
<tr>
<td>68.</td>
<td>Click in the <strong>Step</strong> field.</td>
</tr>
<tr>
<td>69.</td>
<td>Enter &quot;3&quot; into the <strong>Step</strong> field.</td>
</tr>
<tr>
<td>70.</td>
<td>Press [Tab].</td>
</tr>
<tr>
<td>71.</td>
<td>Click the <strong>Compensation</strong> tab to verify the employee’s monthly salary.</td>
</tr>
</tbody>
</table>
Step | Action
--- | ---
73. | Verify the monthly **Comp Rate**.
   
   **Note:** If this were an open-range based salary, this field would be enabled and you would enter the salary into the **Comp Rate** column.

74. | Click the **Employment Data** link to enter the probation date for the employee. **Employment Data**
75. In this example, enter the appropriate probation date into the **Probation Date** field for this employee. Enter "4/2/2012".

    **Note**: If you are uncertain whether a job requires a probation period, check the appropriate policy or union contract.

76. When an employee has signed and completed Mandated Reporter forms, the HR Administrator should record this date. Departments should enter the date the employee signed both of the following forms:
- Statement Acknowledging Requirement To Report Child Abuse
- Statement Acknowledging Requirement To Report Suspected Abuse Of Dependent Adults And Elders

77. Click the **Earnings Distribution** link.
### Step 78.
In the **Job Earnings Distribution** section, verify that the **Begin Date** of the Job matches the effective date of the hire.

If this job has an **End Date**, then enter the appropriate end date.

### Step 79.
The funding chartstring has populated from the position information. However, if necessary, you can add additional funding chartstrings or edit the one displayed.

Be sure to adjust the **Distrb %** fields on all distributions to the correct percentage for each distribution while ensuring that together, all distribution percentages equal the amount of FTE.

### Step 80.
If this is a budgeted position in PRT, enter the FTE budgeted for the position into the **Budgeted FTE** field.

**Note**: This field will only be used through the end of the fiscal year 2011/2012.

In this example, enter "1.0".

### Step 81.
**Tab** out of the field.
## Step 82
Once all required data have been entered for this person's job data, click the **Save** button to complete the hiring process for this new employee.

Click the **OK** button.

### Step 83

**Congratulations!**
You have completed this topic.

**End of Procedure.**
Add an Academic Employment Instance

Prospective faculty being considered in the Academic Case Tracking system will have a Case-Tracking POI (person of interest) relationship in HCM. When an academic POI is hired, you will need to create an employee relationship with UCB by adding an Employment Instance (Job Record) to them. Begin the process by searching for the person using the Person Organizational Summary link and then using the Add Employment Instance link.

Note: You can contact the Academic Personnel Office if you have any specific questions on how to set up academic appointments. Once you have the information you need you can proceed with the entry into HCM.

Depending on your security access, you may have fewer menu choices than are displayed in this topic.

Procedure

In this topic, you will learn how to add an employment instance to an academic person of interest (POI) using a position.

<table>
<thead>
<tr>
<th>Step</th>
<th>Action</th>
</tr>
</thead>
<tbody>
<tr>
<td>1.</td>
<td>Begin by navigating to the Personal Organizational Summary search page. Click the Workforce Administration link.</td>
</tr>
</tbody>
</table>

<th>Action</th>
</tr>
</thead>
<tbody>
<tr>
<td>5.</td>
<td>In this example, Elizabeth Burgess is an Academic Person of Interest who will be hired as a professor in the Physics Department. <strong>Note</strong>: The recommended business practice is to search by ID number. On the Person Organizational Summary page, enter &quot;Burgess&quot; into the Last Name field.</td>
</tr>
<tr>
<td>6.</td>
<td>On your keyboard, press [Tab] to move to the First Name field.</td>
</tr>
<tr>
<td>7.</td>
<td>Enter &quot;Elizabeth&quot; into the First Name field.</td>
</tr>
<tr>
<td>8.</td>
<td>Click the Search button.</td>
</tr>
<tr>
<td>9.</td>
<td>From the Person Summary page, you can see that Elizabeth Burgess already has a POI relationship with the university. From this page, you can add her employment instance (job). If she didn't have a POI relationship with the university, you would need to add that relationship. Click the Add Employment Instance link.</td>
</tr>
</tbody>
</table>

![Person Summary](image)
Step | Action
--- | ---
10. | Verify or update the effective date.
   
   Click in the **Effective Date** field.
   
   **07/01/2012**

11. | Enter the date the person will start work into the **Effective Date** field.
   
   Enter **"10/03/2012"**.

12. | The **Action** field contains the default action of "Hire". You will need to select a corresponding reason for the hire.

13. | Click the **Reason** list.

14. | For Elizabeth Burgess, the best reason is "Hire".

   Click the **Hire** list item.
### Step 15
Indicate the position into which the new academic employee is being hired by entering the position number in the **Position Number** field.

Enter the position number for the hire into the **Position Number** field. Enter "000000699".

### Step 16
Press the [Tab] key to populate data from the position.

### Step 17
Step data is not maintained in the position information. You will need to enter the **Step** value on the **Salary Plan** page for this employee prior to saving.

Click the **OK** button to close the message.

### Step 18
Because this is an academic job, the **Prior/Next Employer** field should be completed. Type in the appropriate code or use the magnifying glass to look up the code.

### Step 19
If there is a code for the previous employer, then enter it into the **Prior/Next Employer** field. Enter "BUW".

### Step 20
Press [Tab].
21. Notice that information has defaulted from the position, such as the Department and Location fields.

If any defaulted information needs to be changed on this page or subsequent job data pages, then click the Override Position Data button to enable these fields.

Note that when Override Position Data is activated, updates to the position will not flow to the incumbent’s job data. You will typically only override position data defaults when making a temporary change or exception to an incumbent’s data that does not apply to the position.

22. Click the Job Information tab.
### Step 23

**Action**

If **Reports To** was completed in the position, the **Reports To** position number displays. If the **Reports To** position is not vacant, and has only one incumbent, the employee ID of the **Reports To** position incumbent auto-populates the **Supervisor ID** field. If the **Supervisor ID** field does not populate from the position, or if the suggested ID is incorrect, then you will need to enter or update it.

### Step 24

**Action**

Elizabeth Burgess is being hired as a tenured faculty member. Update the **Empl Duration** and **Appt Type** fields to reflect this information.

No Appointment End Date should be entered.

Click the **Empl Duration** list.

### Step 25

**Action**

Click the **T-Tenure** list item.

### Step 26

**Action**

Click the **Appt Type** list.

### Step 27

**Action**

Click the **X-Faculty** list item.

### Step 28

**Action**

Indicate the Pay schedule. In this example, she will be paid on the **MO** cycle.

**Note**: In 2013, SM and MA pay schedules will be phased out and replaced with the new code "BW" for biweekly.

Enter "**MO**" into the **Pay Schedule** field.

### Step 29

**Action**

This employee will be paid exception time.

Indicate this exception time by entering "**E**" into the **Time Code** field.

### Step 30

**Action**

Due to academic policy, this job does not accrue leave.

Enter "**N**" for "None" into the **Leave Code** field.

### Step 31

**Action**

Press **[Tab]**.

### Step 32

**Action**

As was indicated by the message you saw earlier, you need to enter the Step value for this employee’s salary plan.

Click the **Salary Plan** tab.
### Step 33
Click in the **Step** field.

### Step 34
Enter this person's salary and enter the step number into the **Step** field. Enter "4".

### Step 35
Verify that based on position, job code, and the step entered; this employee will receive the correct monthly salary.

Click the **Compensation** tab.
36. Verify the monthly Comp Rate.

    Note: If this were an open-range based salary, this field would be enabled and you would enter the salary into the Comp Rate column.

37. At the bottom of the Compensation page, click the Earnings Distribution link.
Step | Action
---|---
38. | In the **Job Earnings Distribution** section, verify that the **Begin Date** of the job matches the effective date of the hire.

If this job has an **End Date**, then enter the appropriate end date.

39. | Since the employee will be paid from one funding source and the FTE for this job is 1.0 (a full-time employee), this distribution percentage must be 100. In this example, the **Distrb %** has populated from the position funding.

**Note:** Be mindful that 100% FTE is represented in Payroll as a whole number (e.g. 1.0); however, the earnings distributions are represented as a percentage of FTE (e.g. 100.0000).
<table>
<thead>
<tr>
<th>Step</th>
<th>Action</th>
</tr>
</thead>
</table>
| 40.  | Verify the earnings chartstrings that are in the **Job Earnings Distribution** section. Verify the fields: **Fund**, **Dept**, **Program**, and **Chartfields**.  
**Note**: If this employee's job requires additional funding distributions, you would add a new row and enter the chartstring.  
Be sure to adjust the **Distrb %** fields on all distributions to the correct percentage for each distribution while ensuring that together, all distribution percentages equal the amount of FTE. |
| 41.  | If this is a budgeted position in PRT, enter the FTE budgeted for the position into the **Budgeted FTE** field.  
**Note**: This field will only be used through end of fiscal year 2011/2012.  
For this job and distribution the Budgeted FTE is 1.00. Enter **"1.0"** into the **Budgeted FTE** field. |
| 42.  | Upon save, the job will be added into the system and the person will have gained an employee relationship.  
Click the **Save** button. |
| 43.  | **Congratulations!**  
You have completed the topic.  
**End of Procedure.** |
Managing Hires: Rehire from TAM Posting

Once the Prepare for Hire step in TAM is complete and the Alternate Dept ID is set, if needed, the candidate will be in "Ready to Hire" status and you will be able to hire the person from the Manage Hires page. For a rehire, after selecting their name from the Manage Hires list, you will need to review and edit their personal information in the HCM system by clicking the Add Person button on the Manage Hires Detail page. After reviewing and making any changes to their personal information, you will return to the Manage Hires Detail page and click the Add Job button to enter their Job Data information. Before you can complete the hire make sure the position number has been entered into the Position Number field on the Work Location page.

Note: It is possible for TAM to prepare a candidate for rehire for a job without a position number. However, a position number is required before a hire can be completed. Be sure to enter a valid position code into the Position Number field on the Work Location page.

Depending on your security access, you may have fewer menu choices than are displayed in this topic.

Procedure

In this topic, you will learn how to rehire a former employee who is returning to the university through a TAM job posting.

Karen Weber is a former employee of UCB. She applied to a TAM job posting and has been selected to be rehired by the university. It is assumed that the Alternate Dept ID has already been set so you are ready to begin the hiring process.
Step | Action
--- | ---
1. | Begin by navigating to the **Manage Hires** page. Click the **Workforce Administration** link in the main menu.

2. | Click the **Manage Hires** link in the **Personal Information** folder.
3. On the **Manage Hires** page **Hire Transactions** section, click the link for the person’s name in the **Name** column for the individual you are hiring.

   In this example, click **Karen Weber**.

4. The **Manage Hires Details** page displays.

   Verify or change the **Desired Start Date** on this page to the date the person will begin working.
### Step 5
Enter the date into the **Desired Start Date** field. Enter "10/02/2012".

### Step 6
Scroll down to the **Add Person** button. Click the **Vertical** scrollbar.

### Step 7
Manage Hires will require you to update the personal information first, before adding the job. Click the **Add Person** button at the bottom of the Manage Hires Detail page to continue to the **Modify A Person** pages.

<table>
<thead>
<tr>
<th>Step</th>
<th>Action</th>
</tr>
</thead>
<tbody>
<tr>
<td>5.</td>
<td>Enter the date into the <strong>Desired Start Date</strong> field. Enter &quot;10/02/2012&quot;.</td>
</tr>
<tr>
<td>6.</td>
<td>Scroll down to the <strong>Add Person</strong> button. Click the <strong>Vertical</strong> scrollbar.</td>
</tr>
<tr>
<td>7.</td>
<td>Manage Hires will require you to update the personal information first, before adding the job. Click the <strong>Add Person</strong> button at the bottom of the Manage Hires Detail page to continue to the <strong>Modify A Person</strong> pages.</td>
</tr>
</tbody>
</table>

**Add Person**
Select this button in order to pull the person’s personal data information from Recruiting Solutions.

**Add Person**

<table>
<thead>
<tr>
<th>Step</th>
<th>Action</th>
</tr>
</thead>
<tbody>
<tr>
<td>8.</td>
<td>Click the <strong>Add Person</strong> button.</td>
</tr>
</tbody>
</table>

Add Person
9. Enter the desired information into the **Effective Date** field. Enter "10/02/2012".

10. The **Modify A Person - Biographical Details** page displays.

    On this page, some of the information remains from when the person was previously employed, the rest comes from the applicant's profile.

    Review all appropriate information and update what has changed.
    The following information defaults from the TAM applicant profile:
    - Current Addresses
    - Phone Information;
    - Email Addresses.

    All information should be reviewed for accuracy.

11. Click the **Contact Information** tab.
12. The **Contact Information** page displays.

   In this example, the candidate formerly worked in Space Sciences, so her Home Department needs to be updated to her new department.

   In this example, enter "PHYSI" into the **Home Department** field.

13. Press **[Tab]**.

14. Verify or update the person's contact information.

15. In this example, no demographic details have changed; therefore, click the **Eligibility** tab.
16. The Eligibility screen displays.

On the Eligibility page, enter the information and data for the following (if relevant) from the rehire paperwork:
- **BELI CODE**: Benefits Eligibility Level Indicator (BELI)
- **I-9 Verification**: Employment Eligibility Verification (Form I-9 - Federal I-9)
- **Patent Date**: (Patent Policy Acknowledgement)
- **State Oath Date**: State Oath of Allegiance State.

For information on HR forms, enter the following URL in your browser's address bar for HR Forms: [http://hrweb.berkeley.edu/hrms/formsdetail.htm](http://hrweb.berkeley.edu/hrms/formsdetail.htm)

17. In this example, the **BELI Code Effective Date**, **I9 Verification**, **Patent** and **State Oath** signature dates have all been updated in compliance with policy.

If you have questions, please review the policies for these forms.

18. The **BELI code** date is the date that you want the benefits to begin. It may not be the same date that the paperwork was signed since rehire paperwork may be signed before work starts.

19. Enter the date the **I9 Verification Date** form was signed.

**Note**: This form only needs to be signed if it has been more than 3 years since the last time this information was verified.

20. Enter the date the **State Oath Date** form was signed.

**Note**: Non-citizens do not sign this form. A new form does not need to be signed, if the last one was signed within one year of the current date.
Step | Action
--- | ---
21. | Enter the desired information into the **Effective Date** field. Enter "10/02/2012".
22. | Enter the desired information into the **I9 Verification Date** field. Enter "10/02/2012".
23. | Enter the desired information into the **Patent Date** field. Enter "10/02/2012".
24. | Enter the desired information into the **State Oath Date** field. Enter "10/02/2012".
25. | Once you have made all necessary updates, save the changes to the employee's personal data.
   
   Click the **Save** button.
26. | Return to the **Manage Hires Details** page for this individual and add the job.
   
   Click the **Return to Manage Hires** link above the **Save** button.
<table>
<thead>
<tr>
<th>Step</th>
<th>Action</th>
</tr>
</thead>
<tbody>
<tr>
<td>27.</td>
<td>Now that the individual's personal information has been updated, add the job to the person. Scroll down to the <strong>Add Job</strong> button. Click the scrollbar.</td>
</tr>
<tr>
<td>28.</td>
<td>Click the <strong>Add Job</strong> button.</td>
</tr>
<tr>
<td>29.</td>
<td>Enter the desired information into the <strong>Effective Date</strong> field. Enter &quot;10/02/2012&quot;.</td>
</tr>
<tr>
<td>Step</td>
<td>Action</td>
</tr>
<tr>
<td>------</td>
<td>--------</td>
</tr>
</tbody>
</table>
| 30.  | The Job Data pages display.  
On the **Work Location** page, the **Effective Date** field will be populated from TAM and for the **Action** field “Rehire” will be already be selected.  
Click the **Reason** list to select “Rehire” as the reason for the action. |
| 31.  | Click the **Rehire** list item.  
|Rehire|
| 32.  | Notice that since the TAM posting included the position number that number is already entered.  
However, if the position number was not entered, be sure to enter it now or you will not be able to complete this hire. |
| 33.  | The **Prior/Next Employer** field should be completed only for academic jobs.  
In this example, this job is not an academic job, so the field should be left empty. |
| 34.  | Notice that some job data have populated from the position information in the TAM posting.  
If needed, you can change position information such as the **Department** and **Location** fields by clicking the **Override Position Data** button.  
Note that when Override Position Data is activated, updates to the position will not flow to the incumbent’s job data. You will typically only override position data defaults when making a temporary change or exception to an incumbent’s data that does not apply to the position. |
| 35.  | Click the **Job Information** tab. |
36. Some of this data have already been entered on the **Job Information** page. Verify the fields and add or update any information.

37. This position does not have an end date. Click the **Empl Duration** list.

38. Click the **I-Indefini** list item.

39. Select the "Regular/Career" appointment type. Click the **Appt Type** list.

40. Click the **2 - Regular/Career** list item.

41. **Note**: In 2013, SM and MA pay schedules will be phased out and replaced with the new code “BW” for biweekly.

42. The **FTE** populates from the position information. It can be changed in the **FTE** field, but must not be greater than the position FTE.
### Step | Action
--- | ---
43. | In this example, we have entered data for you. Normally, you will select the **Fixed** or **Variable** option and fill in the **Pay Schedule**, **Time Code**, and **Leave Code** fields.
44. | Since this job code is step-based, you will need to fill out information on the **Salary Plan** page.

Click the **Salary Plan** tab to enter the Salary Step for the person.

#### Step 45

The **Step** field will be enabled for input.

**Note**: The valid values for each step of the job code can also be selected by clicking on the magnifying glass.

Click in the **Step** field.

#### Step 46

This person is at step 7.

Enter "7" into the **Step** field.

#### Step 47

Tab out to update the record.

Press [Tab].

#### Step 48

Next verify the person's pay information.

Click the **Compensation** tab.
Step | Action
--- | ---
49. | Verify that the person’s pay is correct.

**Note**: If this job code was an open range (instead of step-based), you would enter the monthly salary in the **Comp Rate** field that would be enabled for input.

50. | After verifying the information on the **Compensation** page, enter the probation end date if appropriate for this person.

Click the **Employment Data** link.

**Employment Data**
51. Enter the appropriate date into the **Probation Date** field. Enter "4/2/2012".

52. Press **[Tab]**.

53. When an employee has signed and completed Mandated Reporter forms, the HR Administrator should record this date. Departments should enter the date the employee signed both:
- STATEMENT ACKNOWLEDGING REQUIREMENT TO REPORT CHILD ABUSE
- STATEMENT ACKNOWLEDGING REQUIREMENT TO REPORT SUSPECTED ABUSE OF DEPENDENT ADULTS AND ELDERS.

54. Click the **Earnings Distribution** link.
<table>
<thead>
<tr>
<th>Step</th>
<th>Action</th>
</tr>
</thead>
<tbody>
<tr>
<td>55.</td>
<td>In the <strong>Job Earnings Distribution</strong> section, verify that the <strong>Begin Date</strong> of the Job matches the effective date of the hire.  If this job has an <strong>End Date</strong>, then enter the appropriate end date.</td>
</tr>
</tbody>
</table>
| 56.  | Since the employee will be paid from one funding source and the FTE for this job is 1.0 (a full-time employee), this distribution percentage (**Distrb % field**) must be 100.  
**Note:** Be mindful that 100% FTE is represented in Payroll as a whole number (e.g. 1.0); however, the earnings distributions are represented as a percentage of FTE (e.g. 100.0000). |
<table>
<thead>
<tr>
<th>Step</th>
<th>Action</th>
</tr>
</thead>
<tbody>
<tr>
<td>57.</td>
<td>The funding chartstring has populated from the position information. However, if necessary, you can add additional funding chartstrings or edit the one displayed. Be sure to adjust the Distrb % fields on all distributions to the correct percentage for each distribution while ensuring that together, all distribution percentages equal the amount of FTE. In this example, no edits to the chartstring are necessary.</td>
</tr>
<tr>
<td>58.</td>
<td>If this is a budgeted position in PRT, enter the FTE budgeted for the position into the <strong>Budgeted FTE</strong> field. (Note: This field will only be used through end of fiscal year 2011/2012.) In this example, the position is not budgeted in PRT so leave the field blank.</td>
</tr>
<tr>
<td>59.</td>
<td>Once you have reviewed and updated all job information for this person. Complete the rehire by saving your changes. Click the <strong>Save</strong> button.</td>
</tr>
<tr>
<td>60.</td>
<td><strong>Congratulations!</strong> You have rehired a former employee into a position. <strong>End of Procedure.</strong></td>
</tr>
</tbody>
</table>
Transfer: Into department

You will often hire employees who currently work in another department and are receiving a transfer, promotion, or demotion into your department. (A Transfer is a lateral move. A Promotion is a new job with a higher salary maximum while a Demotion is one with a lower salary maximum.) As the receiving department, you will enter the transfer (or promotion, demotion) action for the appointment in your department. If this transfer is filling a TAM posting, normally the position number will have been entered on the TAM posting. Be sure to verify the position number on the Work Location page.

After the releasing department has entered the Internal Transfer action, your department has access to the job record. Enter the transfer, promotion, or demotion in Job Data. After you complete the job action, you will have access to the individual’s Personal Data as well.

Update any information as appropriate, including Home Department (Earnings Statement Address) so the employee’s campus mail will come to your department. You are now the administrator of the employee’s personal information, so you will input any changes they make in the future to Name, Address, BELI, Visa, etc.

**Note**: This example assumes that you have already asked the previous department to add a Transfer Out row to the record (dated the day before your job begins) in order to turn over the record and for you to be able to access the record and add your Transfer.

**Depending on your security access, you may have fewer menu choices than are displayed in this topic.**

**Procedure**

In this example, Joann Pierce is transferring into the Physics Department at UCB. You will start from the Manage Hires page to verify and complete her job information and to update her personal information as well.
### Step 1
Begin by navigating to the **Manage Hires** page.

Click the **Workforce Administration** link.

### Step 2
Click the **Manage Hires** link.
Step | Action
--- | ---
3. | On the **Manage Hires** page **Hire Transactions** section, click the link for the person's name in the **Name** column for the individual you are hiring.

In this example, click **Joann Pierce**.

**Joann Pierce200**
### Step 4
The **Manage Hires Details** page displays.
Verify or change the **Desired Start Date** on this page to the date the person will begin working.

### Step 5
Enter the desired information into the **Desired Start Date** field. Enter "11/1/2012".

### Step 6
Click the **Vertical** scrollbar to scroll down to the **Add Job** button.

### View / Edit Person
Select the View/Edit Person hyperlink to view or manually updated Personal Information.

### Add Job
Select this button in order to pull the person’s job information from Recruiting Solutions. You will also have the option to access Job from Personal Data.

### Step 7
Click the **Add Job** button.

### Message from webpage
A salary plan Step is required for employee's new job code (200000.137).
The new job code requires a step. Go to the "Salary Plan" tab and enter a step now. Several other fields will be defaulted based on the step you enter.

### Step 8
The position that this employ is transferring into is a step-based salary. You will need to enter the step before you complete the transfer.
Click the **OK** button.
<table>
<thead>
<tr>
<th>Step</th>
<th>Action</th>
</tr>
</thead>
</table>
| 9.   | The Job Data pages display.  
On the **Work Location** page, the **Effective Date** field will be populated from TAM and for the **Action** field “Transfer In” will be selected already.  
If needed, you can change the **Action** field to "Promotion" or "Demotion". In this example, because the person is staying in the same salary range, we will accept the default value.  
Click the **Reason** list to select "Transfer to New Department" as the reason for the action. |
| 10.  | Click the **Transfer to New Department** list item. |
| 11.  | Notice that since the TAM posting included the position number that number is already entered.  
However, if the position number was not entered into the TAM job posting, be sure to enter it now or you will not be able to complete this transaction. |

You have completed transferring an employee.  
**End of Procedure.** |
Job Reclassification (using same Position)

Job reclassifications can be performed in HCM in two separate procedures depending upon the requirements of the situation. The first procedure, which will be the one demonstrated in this topic requires that the job code be changed in the position that the current employee holds. This procedure makes sense if the position is held by only one incumbent's and it is only that incumbent job that has changed. Once the job code is changed in the Position, you will need to go to the Add/Update Position - Incumbents and Funding page to click the Job Data link for the incumbent. This action will display the incumbent Job Data pages. Insert a row in the incumbent's Job Data, perform the "jiggle" (delete, tab out, and re-enter) procedure detailed in this topic, and complete the remaining fields to save the record.

The second reclassification procedure, which will not be demonstrated in this topic, is to place the incumbent into a different position by inserting a row in Job Data, entering another position number in job data, and completing the remaining fields to save the record.

Depending on your security access, you may have fewer menu choices than are displayed in this topic.

Procedure

In this topic, you will learn how to perform a job reclassification by changing a job code in an existing position.

Karen Weber's job duties have substantially changed. The department has submitted and received approval to reclassify his position. To proceed with the reclassification, you will change the job code on the position to reflect his new assignment.
### Step 1
Begin by navigating to the **Add/Update Position Info** page.

Click the **Organizational Development** link in the main menu.

![Organizational Development](image)

### Step 2
Click the **Position Management** link in the Menu.

![Position Management](image)

### Step 3
Click the **Add/Update Position Info** link in the **Maintain Positions/Budgets** folder to the right of the menu.

![Add/Update Position Info](image)
### Step 4

The Add/Update Position Info search page displays.

If you know the position number for job you are reclassifying, enter it into the **Position Number** field.

If you do not know the position number, use the various search fields.

In this example, enter "**00000700**".

### Step 5

Click the **Search** button.
<table>
<thead>
<tr>
<th>Step</th>
<th>Action</th>
</tr>
</thead>
<tbody>
<tr>
<td>6.</td>
<td>The <strong>Position Description</strong> page displays. Remember, that when making updates to position, you will need to begin by clicking the plus button to <strong>add a new row</strong>. Click the <strong>Add a new row at row 1 (Alt+7)</strong> button.</td>
</tr>
<tr>
<td>7.</td>
<td>In the new row that appears, all field data have defaulted from the previous description. You will need to update/verify the <strong>Effective Date</strong> field. Enter a reason for the change and then replace the old job code with the new one.</td>
</tr>
<tr>
<td>8.</td>
<td>You must enter a reason for the change. Click in the <strong>Reason</strong> field.</td>
</tr>
</tbody>
</table>
### Step | Action
--- | ---
9. | Since this is a "Job Reclassification", enter the code for Job Classification into the **Reason** field.
   
Enter the Reason Code into the **Reason** field. Enter "JRC".
10. | Press [Tab].
11. | Click in the **Job Code** field to replace the old code with the new one.
   
   ![Image](4722C)
12. | Enter the new code into the **Job Code** field. In this example, enter job code, "4723C".
13. | Press [Tab].
14. | Notice that the job description to the right of the **Job Code** field has updated.
15. | Click the **Vertical** scrollbar.
16. | If you know the position number of the position this one reports to, enter it into the **Reports To** field.
   
   This field is recommended but not required in the system. However, your department might require the **Reports To** field.
17. | In this example, we are only changing the job code for the position (reclassifying the position) and making no other changes, complete your changes by clicking the **Save** button.
   
   However, a job reclassification may involve a Level 7 Department and/or funding change. Make any additional changes as needed.
18. A message box will appear whenever the position you are updating is a filled position. The message indicates that in order for the changes to apply to the position incumbents, you must update the position information for each incumbent's job data in Workforce Administration.

Click the OK button to close the message.

19. You need to update the job data in Workforce Administration for the person(s) in this position. You can navigate by going to the Workforce Administration > Job Data. Or, use the Job Data link(s) on the Budgets and Incumbents page. Scroll up to view the Budgets and Incumbents tab.

20. Click the Budget and Incumbents tab to access the Job Data link for the position incumbent.
Step | Action
--- | ---
21. | On the **Budget and Incumbents** page, click the **Job Data** link for the incumbent.

22. | The **Job Data** pages for the position incumbent display. Notice that the Position Title to the right of the **Position Number** field has not updated.

   Job reclassifications require a new row to be added to the incumbent's job data.

23. | In the upper right of the **Work Location** section, click the **Add a new row at row 1 (Alt+7)** button.

24. | Every new row to job data requires you to verify/update the **Effective Date** and provide an action and a reason for the change.

   Click the **Action** list.

   - **Rehire**
<table>
<thead>
<tr>
<th>Step</th>
<th>Action</th>
</tr>
</thead>
</table>
| 25.  | There is a selection in the **Action** field for **Job Reclassification**.  
      | Click the **Job Reclassification** list item. |
|       | ![Job Reclassification](image) |
| 26.  | You must also enter a reason.  
      | Click in the **Reason** field. |
|       | ![Reason](image) |
| 27.  | Since the position change represents a movement to a job code with a higher salary range maximum, click the **Upward** list item.  
      | ![Upward](image) |
| 28.  | Press the **[Tab]** key on your keyboard to move to the **Position Number** field. |
| 29.  | Refreshing the job data with the updated position will require a "jiggle". "Jiggle" is a term we will use to indicate a procedure that forces data to repopulate.  
      | **The "Jiggle" steps are:**  
      | 1. Delete the position number.  
      | 2. Tab out of the Position Number field to clear the position data from the row.  
      | 3. Re-enter the position number.  
      | 4. Tab out of the Position Number field to refresh the position data into the row. |
| 30.  | Begin the "jiggle" procedure.  
      | Press the **[Delete]** key to clear the position number from the **Position Number** field. |
| 31.  | Press the **[Tab]** key to clear the position data from the job data record. |
### Step 32
Since positions are required by the system, you will receive a message indicating this requirement.

Click the **OK** button to close the message box.

![Message from webpage](image1.png)

### Step 33
Re-enter the position number, "**00000700**", into the **Position Number** field.

### Step 34
Press the **[Tab]** key to refresh the job data from the updated position.
Step | Action
--- | ---
35. | Because the job code for this position is step-based, a message box displays. As indicated by the message, you will need to go to the Salary Plan page and enter the step. Click the OK button on the message box.

36. | Click the Salary Plan tab.
<table>
<thead>
<tr>

</tr>
</thead>
<tbody>
<tr>
<td>37.</td>
<td>Click in the <strong>Step</strong> field.</td>
</tr>
<tr>
<td>38.</td>
<td>Enter &quot;6&quot; into the <strong>Step</strong> field.</td>
</tr>
<tr>
<td>39.</td>
<td>Press the <strong>[Tab]</strong> key to update the record.</td>
</tr>
<tr>
<td>40.</td>
<td>Click the <strong>Compensation</strong> tab.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Step</th>
<th>Action</th>
</tr>
</thead>
</table>
| 41.  | Verify that the person's pay is correct.  
**Note:** If this job code was an open range (instead of step-based), you would enter the monthly salary in the **Comp Rate** field that would be enabled for input. |
| 42.  | Click the **Earnings Distribution** link.  
Verify the information on the Job Earning Distribution page. |
### Step 43
For this example, all the necessary changes for a job reclassification have been performed, click the **OK** button to save and apply your changes.

A job reclassification could also require a funding change or other changes. Be sure to verify that all needed changes have been made prior to saving.

---

<table>

</tr>
</tbody>
</table>

---

### Step 44
**Congratulations!**
You have learned how to perform a job reclassification by changing a position's job code.

**End of Procedure.**
TAM Posting

Section Overview

The Originator of the Job Opening begins the process by creating the job opening and submitting it to the Authorizer for online approval. If this is a new or a substantially changed position, make sure that the job description and PEM (Physical, Environmental & Mental) form has been reviewed by the Compensation Unit in central HR before you begin the process of creating a Job Opening.

In order to create a Job Opening, you will need the following information:

For the **Job Opening- Job Details** page:

- Position Number
- Number of openings to be filled
- Department (will fill in based on Position number)
- Location (will fill in based on Position number)
- Schedule Type
- Appointment Type

**Job Opening- Posting Information** page:

**Posting Descriptions:**

- Departmental Overview
- Responsibilities
- Required Qualifications
- Preferred Qualifications
- Salary & Benefits
- Equal Employment Opportunity
- Criminal Background Check (as needed)
- Additional descriptions (as needed)

**Posting Destinations:**

- Berkeley Job Site
- External Advertisement Venues (as needed)

**Hiring Team** page:

- Recruiter Hiring Manager or Supervisor
- Interview Committee Members
- Department Authorizer

Because of the complexity of this process, make sure that you have the necessary information before you begin.
Section Objective

- Creating a TAM Posting Using Position Number

Use the Job Opening component which can be accessed through the Create New Job Opening link in the Recruiting module of HCM. Job openings should be created using position numbers. Remember that only staff jobs are posted through TAM.

Note: During the initial implementation, the system will allow a job posting to be created without a position number (using the job code instead). However, your department or Shared Service Center may require you to use a position number when creating a job posting.

Depending on your security access, you may have fewer menu choices than are displayed in this topic.

Procedure

In this topic, you will create a TAM posting using a position number.

<table>
<thead>
<tr>
<th>Step</th>
<th>Action</th>
</tr>
</thead>
<tbody>
<tr>
<td>1.</td>
<td>Begin by clicking the Recruiting link in the main menu to go to the Enter Primary Job Opening Information page. [Recruiting]</td>
</tr>
<tr>
<td>Step</td>
<td>Action</td>
</tr>
<tr>
<td>------</td>
<td>--------</td>
</tr>
<tr>
<td>2.</td>
<td>Click the <strong>Create New Job Opening</strong> link from either the Menu item or the <strong>Recruiting</strong> folder.</td>
</tr>
<tr>
<td></td>
<td><img src="image" alt="Screenshot" /></td>
</tr>
</tbody>
</table>

## Enter Primary Job Opening Information

<table>
<thead>
<tr>
<th>Opening Information</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Job Opening Type</strong>:</td>
<td>Standard Requisition</td>
</tr>
<tr>
<td><strong>Business Unit</strong>:</td>
<td>All Berkeley Campus</td>
</tr>
<tr>
<td><strong>Position Number</strong>:</td>
<td>00000464, Assistant III</td>
</tr>
<tr>
<td><strong>Job Code</strong>:</td>
<td>4722C, Assistant III</td>
</tr>
<tr>
<td><strong>Posting Title</strong>:</td>
<td>Assistant III</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Step</th>
<th>Action</th>
</tr>
</thead>
</table>
| 3.   | Notice that **Job Opening Type** and **Business Unit** fields have default values. **DO NOT** change these values.  
 If you do not know the position number, use the lookup feature by clicking the magnifying glass. |
| 4.   | Enter the position number for the job posting into the **Position Number** field. Enter "00000464". |
### Step 5.
Review the **Posting Title** which has filled in for you. The Posting Title is an open field so you can change it if you have a different title to use for the posting. Remember that a posting title is what an applicant sees when reviewing jobs, so make sure to choose a title that is a good descriptor of the job and is understandable to applicants. In this example, you do not need to change the posting title.

### Enter Primary Job Opening Information

![Image of the Enter Primary Job Opening Information form]

**Warning (20000,907)**

This Job Code requires a Position Number at the time of Hire. Please enter the Position Number for the Job Posting, if available.

### Step 6.
If there is no position number, you can enter a job code instead of a position number, but you will receive a warning message reminding you that a position number is required at the time of hire.

When you exit the field, a warning message displays with the text: "This Job Code requires a Position Number at the time of Hire. Please enter the Position Number for the Job Posting, if available." You can close this message and continue creating the posting.

### Step 7.
Click the **Continue** button to go to the **Job Opening** page.
8. After the Continue button is clicked on the Primary Job Opening Information page, the Job Opening page appears.

Above the Job Details link, the page header displays summary information that you have established for this Job Opening; it cannot be modified.

Below the Job Details link, in the Opening Information area, Created by, Created Date, and Openings to Fill fields have default settings and should not be changed.

9. The Limited selection indicates that your department is posting a limited number of Job Openings.

This field must remain "Limited".
### Step | Action
--- | ---
10. | **Target Openings** defaults to "1". If we are posting this job for more than one opening, we would enter the appropriate number of positions we are filling and tab out of the field.

At the time of the initial posting, **Available Openings** will match **Target Openings**.

When multiple openings are posted, as the recruitment progresses, the number of **Available Openings** will update with each new hire. For example, if 5 positions were posted and 3 applicants have been hired, the **Available Openings** would display 2, the remaining number of open positions.

In this lesson, we are only posting 1 position and we will leave the default "1".

The total **Available Openings** should be less than or equal to the **Target Openings**.

11. | The **Business Unit**, **Position Number**, **Job Code**, **Department**, **Location** and **Recruiting Location** fields default based on the position number you entered earlier. The AA goals for this job should display based on the combination of **Job Code** and **Department code**.

12. | Scroll down on the page.

Click the **Vertical** scrollbar.

13. | **Status Date** defaults to the day you create the **Job Opening** and cannot be changed.

The **Desired Start Date**, **Projected Fill Date**, **Date Authorized**, **Referral Program ID**, and **Recruitment Contact** fields are not used at UC Berkeley.

14. | If this **Job Opening** is intended to fill a position being vacated, you can enter the departing employee’s name in the **Employees Being Replaced** section. If more than one employee is being replaced, you would use the **Add** button.

In this example, we are posting a NEW position, no one is being replaced.
<table>
<thead>
<tr>
<th>Step</th>
<th>Action</th>
</tr>
</thead>
</table>
| 15.  | Scroll down to the **Additional Job Specifications** section.  
<pre><code>  | Click the scrollbar. |
</code></pre>
<p>| 16.  | In this example, the posting is for a Regular career job without an end date. It does not have a special shift and requires no travel. It will have a 40 hour work week. |
| 17.  | In the <strong>Staffing Information</strong> section, you can skip entering begin and end dates for Career positions, however estimated begin and end dates should be entered for Contract or Limited jobs. The 900 Hours box should be checked for any Limited jobs to indicate your department will not violate the 1000 hour rules for Limited employment. |</p>
<table>
<thead>
<tr>
<th>Step</th>
<th>Action</th>
</tr>
</thead>
<tbody>
<tr>
<td>18.</td>
<td>Click the <strong>Appt Type</strong> list.</td>
</tr>
<tr>
<td>19.</td>
<td>Click the <strong>2 - Regular/Career</strong> list item.</td>
</tr>
<tr>
<td>20.</td>
<td>Verify or update the remaining fields in the <strong>Staffing Information</strong> section as needed.</td>
</tr>
<tr>
<td>21.</td>
<td>Compensation Unit review is a requirement for posting a job opening. In this example, we have followed the 'best practice' and have already had Compensation review this position before creating the Job Opening. Therefore, we will answer the compensation question with a 'yes'. If you have not had Compensation review this position, you cannot submit the job. You may &quot;Save as Draft&quot; and return to continue after Compensation review has been completed.</td>
</tr>
<tr>
<td>22.</td>
<td>In the <strong>Compensation Approvals</strong> section, click the <strong>Yes</strong> option for the question: &quot;Has this position been classified by the Compensation Unit?&quot;.</td>
</tr>
</tbody>
</table>
| 23. | The **Additional Comments** box can be used to communicate any other necessary information to the **Department Authorizer** and **Employment Services**. Examples of information to include here:  
- Provide the name and contact information(URL for the "other" option for a non-UCB job posting destination.  
- Provide the chartstring to be charged for any non-UCB posting costs  
- Information about a waiver to the hiring freeze.  
In this example, we do not have any comments to make. |
| 24. | At the bottom right side of the page, click the **Next Step** button. |
| 25. | The **Job Opening** page displays.  
Below the **Job Postings** section, click the **Add Job Postings** link to go to a subpage where you will add information that will describe the job and where it will be published. |
25. The **Job Postings - Posting Information** page contains important information concerning the job responsibilities and minimum qualifications for the posting.

Information entered on this page will be viewed by the applicants as they read the job posting. Take care to provide complete and accurate information; this is the key to getting the quality candidates you want.

The description types may be added to any order but will always display to applicants in a pre-determined order. In this example, we will add the **Description** types in the actual posting order.

The required Job Posting Descriptions are: **Departmental Overview, Responsibilities, Required Qualifications, Preferred Qualifications, Salary & Benefits, and Equal Employment Opportunity.**

**Note:** If the Job Opening has been designated as "sensitive", you must also include the Criminal Background Required description by selecting the Description ID which populates the description field with pre-written language (that should not be changed).
<table>
<thead>
<tr>
<th>Step</th>
<th>Action</th>
</tr>
</thead>
</table>
| 26.  | The **Visible** field determines which applicants (Internal and/or External) will be able to view the information for each description. The system defaults to Internal and External view. **DO NOT** change this except in the very rare instance that the job opening is for internal recruitment only and has been approved by OHR & Staff Affirmative Action & Compliance Office.  
**Note:** Berkeley job postings are intended to be viewed by all applicants for all descriptions; it is not recommended to have selected descriptions limited to only one of the views. As an example of why this is so important, if you select External Only, no internal applicants will be able to see the posting on the jobs page. |
| 27.  | The **Job Opening - Posting Information** page displays.  
In the **Job Descriptions** section, click the **Description Type** list.  
| 28.  | Click the **Departmental Overview** list item.  
**Departmental Overview** |
| 29.  | The Departmental Overview Description should contain a short introduction to the department. Type directly into this field or cut and paste from another source. In this example, we will type an abbreviated sample of text directly into this field.  
Enter a description of the department into the **Description** field. Enter "The Physics department is..." |
| 30.  | If there were any spelling errors, we would have the opportunity to fix them.  
**Note:** The spell check does not check grammar.  
Click the **Spell Check Description (Alt+5)** button. |
<table>
<thead>
<tr>
<th>Step</th>
<th>Action</th>
</tr>
</thead>
<tbody>
<tr>
<td>31.</td>
<td>If no misspellings are found, click the OK button in the message box that displays.</td>
</tr>
<tr>
<td></td>
<td>![Image of message box with OK button]</td>
</tr>
<tr>
<td>32.</td>
<td>At the bottom of the Job Descriptions section, click the Add Posting Descriptions link to add description of job responsibilities to this posting.</td>
</tr>
<tr>
<td>33.</td>
<td>Click the Description Type list.</td>
</tr>
<tr>
<td>34.</td>
<td>Click the Responsibilities list item.</td>
</tr>
<tr>
<td>35.</td>
<td>Enter a description of job responsibilities into the Description field. Enter &quot;Provide administrative support to...&quot;</td>
</tr>
</tbody>
</table>
### Step | Action
---|---
36. | At the bottom of the **Job Descriptions** section, click the **Add Posting Descriptions** link to add description of the preferred qualification for the job to this posting.

![Image of Job Opening Posting Information](Image)

<table>
<thead>
<tr>

</table>
| 85.  | Review the information on the Job Description preview page.  
When you are finished, click the Return to Previous Page link. |
| 86.  | If you need to make changes to the information you have entered on the Job Opening - Posting Information page, make them now.  
Otherwise, click the OK button to return to the Job Opening page and to continue creating the posting. |
Training Guide

<table>
<thead>
<tr>
<th>Step</th>
<th>Action</th>
</tr>
</thead>
</table>
| 87.  | Notice that the Job Postings sections have been collapsed into a single posting link Administrative Assistant 3. This link would be used to open the Job Posting page for this job.  
Note: If you want to re-open the job posting, click on the specific named link and NOT **Add Job Postings**. If we clicked the Add link, we would be creating a second Job Opening posting and both would appear on the posted Job Site under the same Job ID which would be very confusing.  
The Trash can icon on the right would only be used if we wanted to delete the posting page and start over. |
| 88.  | Click the **Next Step** button to proceed to the Hiring Team page. |
## Step 89.

Designate **Employment Recruiter, Dept. Authorizer, Interviewer(s) and the Manager/Supervisor** for this job opening.

This is the only page that can be edited and changed after the job has been submitted and approved. The information on this page can be edited throughout the recruitment process since the individuals involved may change over time.

In the Assignments section, click the **Add Recruiters** link.

## Step 90.

Click the **Look up Recruiter ID (Alt+5)** button to display the **Look up Recruiter ID** page.
91. The results will be filtered by recruiter role. You can narrow the list by adding the recruiter name or click the link for the appropriate recruiter in the **Search Results** section below.

   In this example, click the **Joyce Ming100** link.

92. Notice that the Recruiter name and ID now appear on the Hiring Team page.

   The Dept. Authorizer is the person with the designated authority to approve hires in their department.

   Click the **Add Dept Authorizer** link.

93. Click the **Look up ID (Alt+5)** button to display the **Look up ID** page.

94. In this example, click the the **Ron Forum** link.

95. We will now add the Interviewers. Interviewers can be anyone on campus with an ID. Best practice is to always add the Supervisor of the position posted as the first member of the Interview Team so that they too are able to access the applications.

   Click the **Add Interviewers** link.
<table>
<thead>
<tr>
<th>Step</th>
<th>Action</th>
</tr>
</thead>
<tbody>
<tr>
<td>96.</td>
<td>In most cases you will need to use the Lookup Interviewer ID to search your interviewers by their names. Click the <strong>Look up Interviewer ID (Alt+5)</strong> button to display the <strong>Look up Interviewer ID</strong> page.</td>
</tr>
<tr>
<td>97.</td>
<td>Click the <strong>Marcus Leele</strong> link.</td>
</tr>
<tr>
<td>98.</td>
<td>Next, we will designate the Manager/Supervisor. This is the person who will be the Supervisor of the employee(s) hired for this job. Click the <strong>Manager/Supervisor</strong> link.</td>
</tr>
<tr>
<td>99.</td>
<td>Click the <strong>Look up EmplID (Alt+5)</strong> button to display the <strong>Look up EmplID</strong> page. You can use these fields to search by name.</td>
</tr>
<tr>
<td>100.</td>
<td>Click the <strong>Kyra Forum</strong> link.</td>
</tr>
<tr>
<td>Step</td>
<td>Action</td>
</tr>
<tr>
<td>------</td>
<td>--------</td>
</tr>
</tbody>
</table>
| 101. | The Job Posting page is displayed. After entering all assignments, click the **Save & Submit** button at the bottom left of the page. *
|      | ![Save & Submit button] |
|      | **I confirm that this job has been classified by the Compensation Unit** *(21000.236)* |
|      | **If this job hasn’t been classified by the Compensation Unit, click on Cancel and Save as a Draft and then you can Submit later.** |
|      | ![OK and Cancel buttons] |
| 102. | A confirmation page displays that requires you to confirm that the job has been classified by the Compensation Unit. |
|      | If you have confirmed that the job has been classified by the Compensation Unit, then click the **OK** button to complete the submission. Otherwise, click the **Cancel** button, save the data you have enter as draft until you have obtained the required confirmation. |
|      | In this example, click the **OK** button. |
|      | ![OK button] |
Step 103. Notice the Approvals information appears displaying the next steps in the approval process.

You can return at any time to the Approvals link to check the status of the job.

An e-mail is automatically generated to the Department Authorizer informing them that there is a Job Opening needing their approval.

Once approved, the first box header will change from blue to green and will display a check mark. The status will change from Pending to Approved.

Notice the Job Opening ID has been assigned once the Job Opening was saved.

Step 104. Congratulations!
You have completed the topic.
End of Procedure.
Position Management

Section Overview

Position Management is used at UCB to track positions. By tracking positions in HCM, you can keep a history of all positions. This means that organizational reporting relationships can be tracked independent of the employees in positions.

Use Position Management (within the Organizational Development module) to view, create, and update positions.

Section Objectives

- Viewing Position Data
- Adding a New Position
- Updating a Filled Position
- Updating Position Funding
Viewing Position Data

To view a position, you use the same HCM component as you would to create or update a position. Navigate to the Add/Update Position link in Position Management.

Depending on your security access, you may have fewer menu choices than are displayed in this topic.

Procedure

In this example, you will learn how to look up a position.

You will review the position for its job code, department, standard hours, head count, incumbents, and funding.

<table>
<thead>
<tr>
<th>Step</th>
<th>Action</th>
</tr>
</thead>
<tbody>
<tr>
<td>1.</td>
<td>Begin by navigating to the Add/Update Position Information page. Click the Organizational Development link in the main menu.</td>
</tr>
<tr>

<td>Action</td>
</tr>
<tr>
<td>------</td>
<td>--------</td>
</tr>
<tr>
<td>2.</td>
<td>Click the <strong>Position Management</strong> link in the menu.</td>
</tr>
<tr>
<td></td>
<td><img src="image1" alt="Position Management screenshot" /></td>
</tr>
<tr>
<td>3.</td>
<td>Click the <strong>Maintain Positions/Budgets</strong> link in the menu.</td>
</tr>
<tr>
<td></td>
<td><img src="image2" alt="Maintain Positions/Budgets screenshot" /></td>
</tr>
<tr>
<td>4.</td>
<td>Click the <strong>Add/Update Position Info</strong> link in either the main menu or the in the <strong>Maintain Positions/ Budgets</strong> folder on the right of the menu.</td>
</tr>
<tr>
<td></td>
<td><img src="image3" alt="Add/Update Position Info screenshot" /></td>
</tr>
</tbody>
</table>
Step | Action
--- | ---
5. | The **Add/Update Position Info** page displays. If you know the position number, enter it here and click the **Search** button.
   
   If you do not know the position number, use the search fields to find the appropriate position number.
   
   Click in the **Position Number** field.
   
   ![Position Number field](image)

6. | In this example, enter "00000690" into the **Position Number** field.

7. | Click the **Search** button.
<table>
<thead>
<tr>
<th>Step</th>
<th>Action</th>
</tr>
</thead>
<tbody>
<tr>
<td>8.</td>
<td>The <strong>Description</strong> page for the position displays. Notice the <strong>Effective Date</strong> for the position in the <strong>Position Information</strong> section. The effective date for a position must be on or before the effective date an incumbent is hired into the position.</td>
</tr>
<tr>
<td>9.</td>
<td>When updating a position, you enter a new line by click the <strong>Add new row</strong> button (plus sign) in the upper right of the <strong>Position Information</strong> section. A <strong>Reason Code</strong> is required for a position update.</td>
</tr>
<tr>
<td>10.</td>
<td>Some of the fields in the <strong>Job Information</strong> section populate from the job code entered in position.</td>
</tr>
<tr>
<td>11.</td>
<td>The fields in the <strong>Work Location</strong> section were filled out when the position was created.</td>
</tr>
<tr>
<td>12.</td>
<td>In the <strong>Work Location</strong> section, the <strong>LVL 7 Dept</strong> field is a required field. The LVL 7 Dept ID is often the same as the Dept ID field in the chartstring.</td>
</tr>
</tbody>
</table>
13. When this position was created the **Reports To** position number was entered. This is a recommended field, but not a required field.

**Reports To** will populate in an employee’s **Job Data - Job Information** (WFA) page. **Supervisor ID** will also populate from the Reports To position data, only if the position is not vacant and there is one incumbent.

14. Scroll down to view the **Salary Plan Information** section.

Click the **Vertical** scrollbar.
### Step 15

In this example, the **Standard Hours** for the position are 40. When this position was created entering 40 hours automatically set the FTE to 1.00000 and the work days to 8 hours per day.

FTE can also be changed on an incumbent's **Job Data - Job Information** (WFA) page, but cannot be greater than the Position FTE.

**Note:** The workday boxes are to assist in calculating Standard Hours/FTE only and do not pass to or affect Job Data, PPS, CalTime or any other system.

### Step 16

Scroll up to view the tabs.

Click the **Vertical** scrollbar.

### Step 17

Click the **Specific Information** tab to view head count.

[Specific Information]

### Step 18

The **Max Head Count** field for the position is on the **Specific Information** page. This field indicates the maximum expected number of incumbents for this position.
**Step** | **Action**
--- | ---
19. | Notice the **Headcount Status** field. If the number of incumbents exceeds the Max Headcount number, then the Headcount status will be "Overallocated".

If the number of incumbents is less than the Max Headcount number, then the Headcount status will be "Partial Filled".

If the number of incumbents is same as the Max Headcount number, then the Headcount status will be "Filled".

20. | The **Budget and Incumbents** page lists the employees who currently hold this position.

Click the **Budget and Incumbents**

21. | All active incumbents for the position are listed in the **Current Incumbents** section.

22. | From each incumbents listing, you can view and/or update their Job Data pages by clicking the corresponding **Job Data** link.

23. | Click the **Position Funding** tab.
24. On the **Position Funding** page, funding chartstrings have been entered in the **Funding Distribution** section.

   In this example, there is one chartstring with an Earnings Code of REG and a distribution of 100%. Additional chartstrings can be entered with the funding distributed among them. However, the total distribution percent on all chartstrings with REG Earnings Codes must equal 100%.

   Chartstrings with other Earnings Codes are also allowable, in accordance with business and system rules similar to those in WFA Job Data and Job Earnings Distribution.

25. **Congratulations!**
   You have reviewed position information.
   **End of Procedure.**
Adding a New Position

Use the Add/Update Position component in HCM to add a new position to a department. Required data include: Effective Date, Reason, Job Code, Department, Location, Level 7 Department ID, Standard hours (FTE) and the funding chartstring.

It is recommended that you also enter the Reports To position number. If you do not enter a value, upon saving the new position you will be advised to enter the Reports To position number, but you can save without doing so.

Depending on your security access, you may have fewer menu choices than are displayed in this topic.

Procedure

In this topic, approval has been given to create an Applications Programmer 3 position. You will use the Add/Update Positions page to create the new position.

<table>
<thead>
<tr>
<th>Step</th>
<th>Action</th>
</tr>
</thead>
<tbody>
<tr>
<td>1.</td>
<td>Begin navigating to the Add/Update Position Info page. Click the Organizational Development link in the main menu.</td>
</tr>
<tr>
<td>Step</td>
<td>Action</td>
</tr>
<tr>
<td>------</td>
<td>--------</td>
</tr>
</tbody>
</table>
| 2.   | **Click the **Position Management **link in the menu.**
|      | ![Position Management](PositionManagement.png) |
|      | ![Menu](Menu.png) |

<table>
<thead>
<tr>
<th>Step</th>
<th>Action</th>
</tr>
</thead>
</table>
| 3.   | **Click the** **Maintain Positions/Budgets** **link in the menu.**
|      | ![Maintain Positions/Budgets](MaintainPositionsBudgets.png) |
|      | ![Menu](Menu.png) |
### Step | Action
--- | ---
4. | Click the **Add/Update Position Info** link in the menu or in the **Maintain Position/Budgets** folder on the right of the menu.

![Add/Update Position Info](chart)

### Step | Action
--- | ---
5. | Since you are creating a new position, click the **Add a New Value** tab.
Step | Action
--- | ---
6. | The default position number when adding a new position is ‘00000000’. The system will assign the position a new number once it is successfully saved. Click the **Add** button.
### Step | Action
---|---
7. | The **Description** page for Add/Update Position displays. 

Note the **Effective Date** for the position in the **Position Information** section. The effective date for a position **must** be on or before the effective date of a person hired into the position.

8. | Since a new position is being created in this example the default for the **Reason** field is "New". Leave as defaulted.

9. | You must associate this position with an approved job code. 

Click in the **Job Code** field.

10. | In this example, enter "4722C" into the **Job Code** field.

11. | Tab out to load the page with Job information associated with the code you entered.

*Note: As a best practice, tab out of each of your entries on this page. This action will help you verify the data you have entered.*

Press [Tab].

12. | The fields in the **Job Information** section populate when the job code is entered in position.

13. | The value in the **Full/Part Time** field defaults based on the FTE status in the **Salary Plan Information** section at the bottom of this page.

When first creating a position, Standard Hours defaults to 40.00 and FTE to 1.000000; therefore, the **Full/Part Time** value defaults to "Full-Time". The Full/Part Time value will change to Part Time when the Standard Hours entered decreases the FTE to less than 1.0.

14. | Next add the department for the position.

Click in the **Department** field.

15. | In this example, enter the code for University Relations. Enter "PHYSI" into the **Department** field.

16. | Press [Tab].

17. | Enter "CAMPUS" into the **Location** field.

18. | Press [Tab].
<table>
<thead>
<tr>
<th>Step</th>
<th>Action</th>
</tr>
</thead>
<tbody>
<tr>
<td>19.</td>
<td>Level 7 department is a required field. Enter the Level 7 department that has budgetary ownership of the position. To see a list of Level 7 entries, click the Lookup button. For this department and position, enter &quot;13050&quot; into the LVL 7 Dept field.</td>
</tr>
<tr>
<td>20.</td>
<td>Press [Tab].</td>
</tr>
<tr>
<td>21.</td>
<td>The Reports To field indicates the position number that this position will report to. This is a recommended field in the system, but not a required field. Your department may require this field for reporting purposes. Upon hire, Reports To will populate in an employee's Job Data - Job Information (WFA) page. Supervisor ID will also populate from the Reports To position, if the position is not vacant and there is only one incumbent.</td>
</tr>
<tr>
<td>22.</td>
<td>Enter the position number, 00000232&quot;, into the Reports To field.</td>
</tr>
<tr>
<td>23.</td>
<td>Press [Tab].</td>
</tr>
<tr>
<td>24.</td>
<td>Scroll down to enter the Standard Hours for the Position, which will calculate the Position FTE (full time equivalent). Click the scrollbar.</td>
</tr>
</tbody>
</table>

![Work Location Diagram](image)

<table>
<thead>
<tr>
<th>Step</th>
<th>Action</th>
</tr>
</thead>
<tbody>
<tr>
<td>25.</td>
<td>In this example, we are creating a part-time position at 30 hours a week. Click in the Standard Hours field. 40.00</td>
</tr>
<tr>
<td>26.</td>
<td>Enter &quot;30&quot; into the Standard Hours field.</td>
</tr>
<tr>
<td>27.</td>
<td>Press [Tab].</td>
</tr>
</tbody>
</table>
### Step 28

Notice that upon tabbing out of the **Standard Hours** field the hours updated and are distributed evenly throughout the work week. You can also manually distribute the hours across the work week to calculate total Standard Hours.

**Note:** The division of the hours across the work week is a calculation tool only and is not meant to reflect the actual schedule of the incumbent, nor does this information pass to Job Data, PPS, or CalTime.

### Step 29

Note that the **FTE** field has recalculated based upon standard hours divided by a 40 hour work week.

### Step 30

Click the **Specific Information** link at the bottom of the page.

### Step 31

The **Specific Information** page displays. In the Specific Information section, the **Max Head Count** field indicates the maximum expected number of incumbents for this position.

The default is one. If this is correct, accept this value, otherwise change to the number of people expected to this position.

In this example, we will only have one incumbent in this position, so we will leave the default value of one.

### Step 32

For all checkboxes on the right, accept all the defaulted values and make no changes for new positions.
33. Click the **Budget and Incumbents** tab.

34. The **Budget and Incumbents** page displays. When creating a new position, this page will remain blank. Once employees are hired into this position, they will be listed in the **Current Incumbents** section.

35. Click the **Position Funding** tab to enter the funding chartstring(s) for this position.
<table>
<thead>
<tr>
<th>Step</th>
<th>Action</th>
</tr>
</thead>
<tbody>
<tr>
<td>36.</td>
<td>On the Position Funding page that displays, GL Business Unit and Account default. Begin entering the funding in the Funding Distribution section. In this example, enter &quot;19900&quot; into the Fund field.</td>
</tr>
<tr>
<td>37.</td>
<td>Tabbing out of each field validates your entry. Press [Tab].</td>
</tr>
<tr>
<td>38.</td>
<td>Enter the appropriate information into the DeptID field. Enter &quot;13050&quot;.</td>
</tr>
<tr>
<td>39.</td>
<td>Press [Tab].</td>
</tr>
<tr>
<td>40.</td>
<td>Enter the appropriate information into the Program field. Enter &quot;40&quot;.</td>
</tr>
<tr>
<td>41.</td>
<td>Click in the Distrb % field.</td>
</tr>
<tr>
<td>42.</td>
<td>Note that the total distribution percent on all REG distribution lines must equal 100%, even if the Position FTE is less than 1.0. In this example, the Position FTE is .75 but the total distribution percent equals 100%. If the funding is distributed between multiple chartstrings, the system will make the appropriate adjustment to the distribution percent when the funding is brought into Job Earnings Distribution, so that the total distribution percent matches the Job FTE (percent time) according to WFA business rules. In this case, the funding will be distributed 60/40 between two funding chartstrings. Enter &quot;60&quot; into the Distrb% field.</td>
</tr>
<tr>
<td>43.</td>
<td>Press [Tab].</td>
</tr>
<tr>
<td>44.</td>
<td>This funding is &quot;Regular&quot; pay. Enter &quot;REG&quot; into the ERNCD field</td>
</tr>
<tr>
<td>45.</td>
<td>Add a line for the next chartstring. Click the <strong>Add a new row at row 1 (Alt+7)</strong> button.</td>
</tr>
</tbody>
</table>
Step | Action
--- | ---
46. | Click in the **Fund** field.
47. | Enter the appropriate information into the **Fund** field. Enter "19900".
48. | Press **[Tab]**.
49. | Enter the appropriate information into the **DeptID** field. Enter "13000".
50. | Press **[Tab]**.
51. | Enter the appropriate information into the **Program** field. Enter "40".
52. | Enter the appropriate information into the **Distrb %** field. Enter "40".
53. | Press **[Tab]**.
54. | Enter the appropriate information into the **ERNCD** field. Enter "REG".
55. | Once you have entered all required data, create the position by saving it.
    | Click the **Save** button.
56. | A successful save is indicated when the system assigns the position a position number. Make sure to note the position number for use when creating a TAM job posting or in the Job Data page (in Workforce Administration).
57. | **Congratulations!**
    | You have learned how to create a position.
    | **End of Procedure.**
Updating a Filled Position

Position data updates including Department, Location, Standard Hours, and Reports To fields will automatically update job data in Workforce Administration by inserting a new, effective-dated row.

Changes to Job Code, FTE or Position Funding (chartstring changes) will NOT automatically update Job Data in Workforce Administration. You will need to add a new effective dated row in Workforce Administration for these changes.

Row deletions and corrections to position data also do not update Job Data automatically.

Depending on your security access, you may have fewer menu choices than are displayed in this topic.

Procedure

In this topic, you will make several updates to a position which has an incumbent. All changes made will automatically populate to each incumbent job data.

<table>
<thead>
<tr>
<th>Step</th>
<th>Action</th>
</tr>
</thead>
<tbody>
<tr>
<td>1.</td>
<td>Begin by navigating to the <strong>Add/Update Position Info</strong> page. Click the <strong>Organizational Development</strong> link in the main menu.</td>
</tr>

</table>
Step | Action
--- | ---
4. | It is recommended that if you know the position number, enter it on the *Add/Update Position Info* search page. In this example, enter "00000630" into the *Position Number* field.

5. | Click the **Search** button.
### Step 6

In this example, we are updating the **Location** and **Reports To** fields for the position. Add a new line to begin making these changes.

Click the **Add a new row at row 1 (Alt+7)** button.

### Step 7

A reason code is required when creating or updating a position.

Click the **Look up Reason (Alt+5)** button.
8. In this example, select "LOC".
   Click the LOC link.
   ![LOC link]

9. This position is moving onto the main campus.
   Enter "CAMPUS" into the Location field.

10. Press [Tab].

11. Enter the new position number to which this position will report into the Reports To field. Enter "00000528".

12. Press [Tab].

13. Scroll down to update the Salary Plan Information.
   Click the Vertical scrollbar.
Step | Action
--- | ---
14. | Enter the desired information into the **Standard Hours** field. Enter "30".
16. | The new standard hours are distributed evenly throughout the week. The work week hours can be changed to help calculate the FTE. **Note**: The hours entered are for calculation purposes only and do not pass to or affect Job Data, PPS, CalTime or any other system.
17. | The position is automatically adjusted to **Part-Time** when less than 40 hours are entered. Also, note that the **FTE** for the position has also updated.
18. | Complete the changes to position by saving. Click the **Save** button.

![Message from webpage](image)
<table>
<thead>
<tr>
<th>Step</th>
<th>Action</th>
</tr>
</thead>
</table>
| 19.  | A message box displays indicating that these changes will automatically update the Job Data for all incumbents in this position. No manual update is required in Workforce Administration.  
   
   Click the **OK** button. |
| 20.  | To verify that the changes took place in the job data pages of the incumbent(s), you can click on the **Budget and Incumbents** tab and click on the incumbent’s **Job Data** link.  
   
   You can also navigate to the Job Data pages by clicking **Workforce Administration** in the main menu and then the **Job Data** link. Search for the incumbents by position number. |
| 21.  | **Congratulations!**  
   You have made the following changes to a position, all of which will automatically update to the incumbent’s job data: Department, Location, Reports To, and Standard Hours.  
   **End of Procedure.** |
Updating Position Funding

Updates to Position Funding do not automatically flow to Workforce Administration job data of the incumbent. After updating the position funding data with a new line and saving the funding update, if you want to update the incumbent’s earnings distribution(s) as well you will need to manually enter the update in the incumbent's job data in Workforce Administration. To do this, in the Add/Update Position - Incumbents and Funding page, click the Job Data link for the incumbent. Insert a row in the incumbent’s Job Data page and either enter an earnings distribution change, or reset (aka “jiggle”) the Position Number to pull over all current Position and funding data. (Note that with the reset method you will need to re-enter the incumbent’s compensation data before saving.)

In general, for short-term funding changes to filled positions that may not affect the Position budgeting, it is not usually necessary to update Position funding. Earnings distribution updates can be made directly in Workforce Administration-Job Data. HCM users may be asked to update Position funding when the position becomes vacant or when the department is preparing for a periodic upload of data from HCM to CalPlanning.

Depending on your security access, you may have fewer menu choices than are displayed in this topic.

Procedure

In this topic, you will learn how to update a position's funding.
<table>
<thead>
<tr>
<th>Step</th>
<th>Action</th>
</tr>
</thead>
<tbody>
<tr>
<td>1.</td>
<td>Begin by navigating to the <strong>Add/Update Position Info</strong> page. Click the <strong>Organizational Development</strong> link in the main menu.</td>

<tr>
<td>2.</td>
<td>Click the <strong>Position Management</strong> link in the menu.</td>
</tr>
<tr>
<td>3.</td>
<td>Click the <strong>Add/Update Position Info</strong> link in the <strong>Maintain Positions/Budgets</strong> section to the right of the menu.</td>
</tr>
</tbody>
</table>
Step | Action
--- | ---
4. | If you know the position number, enter it on the **Add/Update Position Info** search page. In this example, enter **00000631** into the **Position Number** field.

5. | Click the **Search** button.
### Step 6

Since we are updating the funding for this position, go directly to the **Position Funding** page to enter the funding chartstring(s) for this position.

Do NOT add a row to Position Data if you are only updating position funding.

Click the **Position Funding** tab.

![Position Funding Tab](image)

### Step 7

Click the **Add a new row at row 1 (Alt+7)** button in the **Budget Data** section.

**Note:** There are two **Add a new row** buttons on this page. To update funding, be sure to add a row in the **Budget Data** section, not the **Funding Distribution** section.

This action adds a new **Budget Data** line. Notice that the Funding Distribution line data has defaulted.

Be sure to change or verify the Effective Date.
<table>
<thead>
<tr>
<th>Step</th>
<th>Action</th>
</tr>
</thead>
</table>
| 10.  | In this example, you will add another distribution chartstring. The funding will be split between the two lines, each at 50 percent.  
Indicate that 50% of funding will come from this chartstring. Enter "50" into the **Distrb %** field. |
| 11.  | On your keyboard, press [Tab]. |
| 12.  | Now add the new line for the new chartstring.  
Click the **Add a new row at row 1 (Alt+7)** button. |
| 13.  | Enter the appropriate information into the **Fund** field. Enter "19900". |
| 14.  | Press [Tab]. |
| 15.  | Enter the appropriate information into the **DeptID** field. Enter "13051". |
| 16.  | Press [Tab]. |
| 17.  | Enter the appropriate information into the **Program** field. Enter "40". |
| 18.  | Press [Tab]. |
| 19.  | The remaining percentage will be distributed to this chartstring.  
Click in the **Distrb %** field. |
| 20.  | Enter the appropriate information into the **Distrb %** field. Enter "50". |
| 21.  | Press [Tab]. |
| 22.  | Enter the appropriate information into the **ERNCD** field. Enter "REG". |
| 23.  | Press [Tab]. |
| 24.  | Click the **Save** button. |
| 25.  | Now that you have updated and saved your changes to this position, you will update the incumbent's funding on the Job Data pages in Workforce Administration.  
**Note**: You will only take this action for those incumbents who require their funding information to be updated to match the position.  
Click the **Budget and Incumbents** tab. |
Step 26.

Click the **Job Data** link to access this employee’s **Job Data** page.

Note: You can also navigate by following the **Workforce Administration > Job Data** path.

**Job Data**
<table>

</tr>
<tr>
<td>29.</td>
<td>Click in the <strong>Action</strong> field.</td>
</tr>
<tr>
<td></td>
<td><strong>Budgeted Position Change</strong></td>
</tr>
<tr>
<td>30.</td>
<td>Click the <strong>Earnings Distribution Change</strong> list item.</td>
</tr>
<tr>
<td></td>
<td><strong>Earnings Distribution Change</strong></td>
</tr>
<tr>
<td>31.</td>
<td>Click in the <strong>Reason</strong> field.</td>
</tr>
<tr>
<td></td>
<td><strong>New Position</strong></td>
</tr>
<tr>
<td>32.</td>
<td>Click the <strong>Reason</strong> list item.</td>
</tr>
<tr>
<td></td>
<td><strong>Earnings Code Change</strong></td>
</tr>
<tr>
<td>33.</td>
<td>You now have two choices to update the data, either reset (a.k.a. “jiggle”) the Position number to refresh the data and then review/update fields to ensure they are correct (jiggling will cause salary or other fields to be refreshed/blanked out) -- or go to the Earnings Distribution page and manually enter the new chartstring.</td>
</tr>
<tr>
<td></td>
<td>In this example, we will try “jiggling” the position number.</td>
</tr>
<tr>
<td></td>
<td>Refreshing the job data with the updated funding information will require a &quot;jiggle&quot;. &quot;Jiggle&quot; is a term used to indicate a 4 step procedure required to update the Job code.</td>
</tr>
<tr>
<td></td>
<td>The &quot;Jiggle&quot; steps are:</td>
</tr>
<tr>
<td></td>
<td>1. Delete the position number.</td>
</tr>
<tr>
<td></td>
<td>2. Tab out of the Position Number field to clear the position data from the line.</td>
</tr>
<tr>
<td></td>
<td>3. Re-enter the position number.</td>
</tr>
<tr>
<td></td>
<td>4. Tab out of the Position Number field to refresh the position data into the line.</td>
</tr>
<tr>
<td>34.</td>
<td>Begin the &quot;jiggle&quot; procedure.</td>
</tr>
<tr>
<td></td>
<td>Click in the <strong>Position Number</strong> field.</td>
</tr>
<tr>
<td></td>
<td>00000631</td>
</tr>
<tr>
<td>35.</td>
<td>Press <strong>[Delete]</strong> to remove the position number data from the Position Number field.</td>
</tr>
<tr>
<td>36.</td>
<td>Press the <strong>[Tab]</strong> key to clear the position data from the job data record.</td>
</tr>
</tbody>
</table>
### Step 37
Since positions are required by the system, you will receive a message indicating this requirement.

Click the **OK** button to close the message box.

### Step 38
Reenter the **Position Number**, "00000631" into the **Position Number** field.

Press the **[Tab]** key to refresh the job data from the updated position.
<table>
<thead>
<tr>
<th>Step</th>
<th>Action</th>
</tr>
</thead>
<tbody>
<tr>
<td>40.</td>
<td>Click the <strong>Compensation</strong> tab.</td>
</tr>
<tr>
<td>41.</td>
<td>Enter the desired information into the <strong>Comp Rate</strong> field. Enter &quot;6893.50&quot;.</td>
</tr>
<tr>
<td>42.</td>
<td>Press [Tab].</td>
</tr>
</tbody>
</table>

### Step 43

You may need to review information on the **Salary Plan** or **Compensation** pages to ensure salary is correctly displaying since the position jiggle has reset the job code as well.

Make sure to go to the **Earnings Distribution** page to verify that the Begin Date matches the Effective Date of the row that you added and to ensure the funding for this employee has refreshed with the new funding data from the position.

Click the **Earnings Distribution** link.
<table>
<thead>
<tr>
<th>Step</th>
<th>Action</th>
</tr>
</thead>
<tbody>
<tr>
<td>44.</td>
<td>Click the <strong>Vertical</strong> scrollbar to view all the funding information.</td>
</tr>
<tr>
<td>45.</td>
<td>In this example, the update has created a new <strong>Job Earnings Distribution</strong> line and updated this line with the two chartstrings you created in the position. Note that the system adjusts the distribution percent to equal the percent time, as required by Job Data and Job Earnings Distribution save-edit rules.</td>
</tr>
</tbody>
</table>
| 46.  | Verify or update Budgeted FTE, if needed.  
In this example, the position is not budgeted in PRT, so leave blank. |
| 47.  | Click the **Save** button to save the update to the employee's job data.  
**OK** |
| 48.  | **Congratulations!**  
You have learned how to update position and incumbent funding.  
**End of Procedure.** |
